NO DOUBT AS TO TAFT'S POSITION

President Defines His Attitude
on the Tariff.

FAVORS DOWNWARD REVISION

Statement Issued From the White House Makes Clear the Chief Executive's Views—Interpreted in Some Quarters as a Notice to Conferencees That If Tariff Bill Does Not Reduce Duties the President Will Veto It.

Washington, July 17.—All doubt as to where President Taft stands with regard to the downward revision of the tariff was swept away when a statement was given out at the White House setting forth in detail what the president had to say to twenty-three Republicans, members of congress, who called to protest against putting raw materials on the free list. The president in this statement declared that the Republican party is committed to a downward revision; that he has never had any other idea of the Chicago platform, and that he personally has promised a downward revision to the people.

This statement is interpreted in some quarters here as a direct notification to the conferencees on the tariff bill that if the measure they finally agree upon does not constitute a material reduction in specific duties the president will exercise his power of veto.

The president's statement created a decided sensation among senators and representatives who became acquainted with its contents. The statement was shown to Senator Aldrich. He made no direct comment upon it, but said that the conferencees had decided to let Mr. Taft deal with schedules upon which they could not agree, it being up to the president to secure the votes necessary to pass the measure in the form in which it would be reported out of conference as a result of his mediation between the house and senate conferencees.

HOLDS BUT A SHORT SESSION

House Excited Over the Baseball Game.

Washington, July 17.—Excitement over the baseball game between teams representing the Democratic and Republican sides of the chamber was responsible for a short session of the house. Chairman Tawney's desire was to conclude consideration of the urgent deficiency appropriation bill, but the strenuous pressure brought to bear upon him and the speaker caused them to agree to let the bill go over until Monday.

The only action of importance in connection with the deficiency bill was the striking out of the appropriation of \$30,000 for participation by the United States in the Brussels exposition.

The Democrats won the ball game by a score of 23 to 16.

LAYING ASIDE HIS BURDENS

John D. Rockefeller Transfers Property to His Son.

New York, July 17.—John D. Rockefeller has transferred several million dollars' worth of real estate in this city to his son, John D. Rockefeller, Jr. The transfers, it is understood, are a part of a plan of the oil magnate to lay aside the burdens of active business.

The parcels of land turned over from senior to junior include several blocks of ground surrounding the Rockefeller Institute of Medical Research. The transfer is particularly believed to indicate that the recipient is to carry on personally the work started by his father.

THREE PERSONS DROWNED

Gasoline Launch Capsizes in Lake George.

Glens Falls, N. Y., July 17.—Rev. John Laubenheimer of Albany, lecturer of the grand lodge of Masons of New York state; Hiram Philo of Glens Falls and Joseph Hanson of Wilmington, Del., were drowned by the capsizing of a gasoline launch in Lake George. Philo was an engineer on a Lake George steamer and Hanson, a negro, had the launch in charge.

Minnesota Man May Get Job.

Washington, July 17.—An announcement at the state department that Edwin V. Morgan, minister to Cuba, has been granted a two months' leave of absence revived the report that he would be succeeded at that post by Lauritz Swenson of Minneapolis.

PLEADS FOR ELLA GINGLES

Attorney Makes Final Effort to Obtain Her Acquittal.

Chicago, July 17.—The final plea for Ella Gingles was made in Judge Brentano's courtroom here by Attorney Patrick H. O'Donnell. At his conclusion the jurors, several of whom were wiping tears of sympathy from their eyes, asked for an adjournment until Monday morning. At that time Assistant State's Attorney B. J. Short will close the case.

"This case has been on my soul since Jan. 3," said Mr. O'Donnell. "I shall conclude my work this afternoon and I hope that my services will not have been in vain."

"Perhaps you think I am going to attack someone, but I am not. Chicago is waiting for a Moses. It is in an expectant mood like San Francisco was when Henry spoke. I may be ruined in this trial, but if State's Attorney John Wayman wants to write his name among the great the material is in this case."

"This case is through and you are to decide now whether Ella is guilty or not. The state has charged that I put the name of Tom Taggart and these horrible stories into this girl's mouth. They had to abandon that when it was found that Ella told her story to others before I heard it. Then they shifted again and Mr. Short tried to prove that this poor, unfortunate girl got her story from a case in Belleville, Ont., and from reading medical treatises. Mr. Short's admission that her story was scientifically true shows that she was telling the truth."

"No human could have concocted that story. It was lived by Ella Gingles in all its horror."

"There are only three stories of how the girl was injured. One is that she did it herself. The other is that she had an accomplice and the third is that she was the victim of friends frenzied by wine. I say that it was the last and the evidence bears me out."

STRIKE SITUATION IS QUIET, BUT OMINOUS

Further Trouble Anticipated at
McKees Rocks, Pa.

Pittsburg, July 17.—The strike situation at the Pressed Steel Car company's plant in McKees Rocks is quiet, but ominous. For the first time since their arrival the constabulary troopers snatched a few hours sleep. Throughout the early part of the evening every house occupied by strikers and their families in McKees Rocks was searched for firearms, but the hunt was fruitless. With an outlook for a riotous Saturday, following the official statement of President Hoffstott that he would neither treat with nor reinstate the striking men, the authorities have laid their plans to cope with a serious situation.

The one clash of the night occurred between a deputy sheriff and a crowd of strikers' sympathizers. The deputy was on his way to his home and when surrounded by angry strikers pulled his revolver and fired into the crowd. Further trouble is feared when the constabulary will attempt to deport several of the strike leaders who have so far evaded arrest but are known to have participated in the rioting.

NEW YORK TO MARBLEHEAD

Dozen Motorboats Will Take Part in Contest.

New York, July 17.—From New York to Marblehead, Mass., at high speed is the journey undertaken by the dozen cruising motorboats starting today on the annual event which holds the attention of motorboat enthusiasts throughout the country. The course, from the Crescent Athletic club's boathouse at Bay Ridge to the house of the Eastern Athletic club at Marblehead, measures 285 miles and the boats will not reach their haven until some time tomorrow afternoon.

FOUR ARE DEAD FROM HEAT

And Another Person Killed by Lightning at Philadelphia.

Philadelphia, July 17.—With the humidity ranging from 84 to 94 and the maximum temperature 87 degrees, the city was greatly relieved by a heavy downpour of rain. As a result of the extreme weather five persons are dead, four of them from the heat and one from being struck by lightning.

CROWN PRINCE NOW IS SHAH

Ahmed Mirza Proclaimed Ruler
by National Assembly.

MOHAMMED ALI IS DETHRONED

Deposed Shah of Persia Has Taken Refuge in the Russian Summer Legation at Zerdende, Where He Is Under the Protection of Detachments of Cossacks and Sepoys. Azad Ul Mulk Appointed Regent.

Teheran, Persia, July 17.—Mohammed Ali, shah of Persia, was dethroned and the crown prince, Sultan Ahmed Mirza, was proclaimed shah by the national assembly, composed of the chief Mujtehdids and the leaders of the Nationalist forces, in the presence of an immense crowd in Parliament square.

Mohammed Ali has taken refuge in the Russian summer legation at Zerdende, where he is under the protection of detachments of Cossacks and Sepoys, dispatched to Zerdende by the Russian and British diplomatic representatives. The new shah is yet in his minority, and Azad Ul Mulk, head of the Kajar family, has been appointed regent. Sipahdar, one of the most active leaders of the movement, has taken office as minister of war and governor of Teheran. General Lakhoff, through whose negotiations with the Nationalists the surrender was effected, was escorted by mounted Bakhtiari riflemen to the parliament building and was greeted with loud applause by the people. He was informed that he might remain temporarily in command of the Cossack brigade provided he strictly obeyed the orders of the war ministry. This arrangement was communicated to the British and Russian legations.

The shops and private houses occupied by the shah's soldiers have been plundered and the residence of the manager of the Indo-European Telegraph company has been looted, but no other homes of foreigners were invaded.

With the exception of desultory firing by a handful of loyal Bakhtiari in a lane near the British legation, Teheran is quiet. The townspeople are taking quite calmly the sudden change in rulers, while the Nationalists are resting after four days of incessant fighting in the streets of a strange town.

BISHOP SHANLEY IS DEAD

North Dakota Prelate a Victim of Apoplexy.

Fargo, N. D., July 17.—Bishop John Shanley of the Catholic see of Fargo was found dead in his room here.

Bishop Shanley had been in poor health for some months and had spent March, April and May in Europe on advice of his physician, returning here just one month ago. Medical advisers had informed him he had heart trouble of long standing, combined with hardening of arteries, and had advised him to refrain from all active work.

Since the bishop's return from Europe he had been extremely busy and this week he had attended the Indian congress at Devils Lake, where he delivered an address. His activity there, combined with intense heat, left him in an exhausted condition when he returned home Wednesday night.

The demise was evidently due to apoplexy and the condition of the body showed that death had occurred many hours before.

THE BEST 15c INVESTMENT A WOMAN CAN POSSIBLY MAKE

Fifteen cents spent ordinarily does not secure much but when spent for THE LADIES' HOME JOURNAL it secures the best home magazine published. It has a purpose—its ideals are lofty—but it is far from prosy. The August number is most interesting in every detail from cover to cover. Just note these topics.

THE VERY FIRST PAGE contains an announcement that women of all conditions will peruse for it speaks of styles and what women is there that is not more than interested in style. It also has some things to say of THE MERITORIOUS LADIES' HOME JOURNAL PATTERNS.

A LONG TIME UNTIL CHRISTMAS by the calendar but even though there has always been a long time, each year, before that event, you have never been prepared for it when it came. The August number will contain a splendid article that will help you—"Christmas Presents for Summer Work."

HOW I LIVED ONE SUMMER WITHOUT FIRE OR ICE. Every Woman who has followed Mrs. S. T. Rorer in her suggestions know that this article, which is written by her, will contain most practical suggestions for the summer time.

ARE YOU AFRAID OF THUNDERSTORMS? "The Thunderstorm Bugaboo" by John Elfreth Watkins, exposes some popular fallacies, and, on the other hand, has some useful suggestions in the direction of safety.

HOW I WENT TO THE SOURCE OF THE TIBER. Miss Marie Van Vorst had a most interesting trip and, of course, writes about it well.

OTHER MOST INTERESTING ARTICLES. We have not told you about all the good articles nor of all the splendid departments but they are there—as interesting as ever and will please any woman.

AND NOW THIS—We take subscriptions for THE JOURNAL—\$1.50 the year—or you secure it at news stands for 15c the copy. When reading your JOURNAL remember we sell the pattern for all garments illustrated.

WEEKLY REVIEW OF TRADE

Business is of Fairly Good Volume for This Season.

New York, July 17.—Bradstreet's review of trade says that despite irregularities in crop and weather conditions, midsummer influences in trade and industry and conservatism in placing orders ahead, business is of fairly good volume for the season of the year and shows a perceptibly steady advance toward normal proportions. In retail trade clearances sales are universal, but there are numerous reports that reduced purchasing power offsets the stimulus of these means of inducing buying. Wholesale trade for immediate delivery and jobbing business in summer goods is of a light volume. Fall trade reports are still relatively the best of any branch. Still there are reports of quiet in the Southwest, and Chicago seems to be the most active market in the country, with the Northwest coming next as regards favorable reports.

Five Hurt in Collision.

Hinckley, Minn., July 17.—Great Northern train No. 19 ran into the rear end of an extra freight train at Brook Park. The engine of the passenger train was overturned, seriously injuring Engineer John Hussey and slightly bruising Fireman Jay Johnson. Both men jumped through the cab window. Three passengers were slightly injured.

Princess Slightly Injured.

Dresden, July 17.—Princess Johann Georg of Saxony was thrown out of her automobile while driving in the vicinity of the castle. Her head was injured, but the attending physician says that the wound is slight.

"Has she been in society very long?" "I don't think so. It seems to be a positive effort for her to be rude."—Cleveland Leader.

The Kline Carnival Co., which is billed for Brainerd for the week commencing July 26, is winning plaudits wherever it has appeared. It will have many new attractions this year and will have the standard amusements which people always demand of a carnival. As was the case last season nothing will be allowed at all approaching skin games or fakes. There will certainly be great crowds out or Brainerd people have changed wonderfully in the past year. As before stated, a large per cent of the proceeds go to the Brainerd Park Improvement Association.

The Cross Lake stage, which has for many years made the trip between

Brainerd and the above named place three times a week, finished the last round trip today. The mail which has been carried over this route since mail was delivered in that section of the country will hereafter go by the way of Pequot and will be taken by stage from that point to Cross Lake and Emily, the department having discontinued the route from this city on the completion of the present trip and the new route starts Monday. It is understood that Bert Conliff, of Emily, was the successful bidder on the Pequot route.

CITY SUED FOR PRICE OF STEAM ROLLER

Port Huron Company Begins Suit for \$2,000 Alleged Value of Steam Roller

SAYS HORSE ROLLER IS USELESS

Company Alleges that City Has Used Horse Roller Until it is Worked Out

Papers have been served on Mayor Ousdahl bringing suit against the city for \$2,000 by the Western Port Huron Co., for a steam road roller sold, or alleged to have been sold to the city by the company in the spring of 1907. The city was to pay \$1700 and a horse roller owned by the city, for the steam roller, which the company's agent stated had only been used for show purposes. The roller proved, according to the allegations of the city to be a rebuilt threshing engine, and the city refused to pay. It offered the company \$1,000 for the roller, the city to retain the horse roller, but the offer was refused and the company has brought suit for \$2,000 alleging that the city has used the horse roller because the steam roller so buried itself in the sand that it could not be used, according to the statements of the then street commissioner.

IS GETTING SERIOUS

Drought Proving Disastrous to Crops and Will Seriously Hurt Business Conditions

The drought situation in Crow Wing county is becoming very serious. There has been practically no rain here since early in June and crops in many sections of the county are entirely ruined and in the rest a few more days will put them completely to the bad beyond possibility of recovery. A Brainerd merchant remarked this morning that fifty per cent of Brainerd's trade now came from the farmers and that unless relief from the drought came at once and the farmers were enabled to get work in the woods this winter, that the trade here would be slim the coming winter.

Strict Economy Necessary

EDITOR DAILY DISPATCH.

For the benefit of the public and to show the citizens of our city why there is not more work done on our streets and why the city council must insist on the most strict economy in order to have money to pay the necessary expenses of the city I hereby submit the following statement which will show about where we will be January first;

Receipts July 1 to Jan. 1—	
12 saloon licenses	\$ 6 000
Miscellaneous	1 425
June settlement	4 336
Nov. settlement estimated from last year	\$ 13 161
Expenses July 1 to Jan. 1—	
General expense six months	\$ 9 000
Water rent due July	3 150
Water rent due Jan.	3 150
500 cords of rock	2 000
	\$ 17 300

These figures are as near correct as I get them on estimate but in my judgment will not be far from correct.

Yours truly,

C. H. PAINE.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address: F. J. CHENEY, & CO., Toledo, O. MAY CLOSE PACKING PLANT

Court Holds Minnesota Board of Health Has the Power.

St. Paul, July 17.—That the closing of a packing plant or a rendering plant when it becomes a nuisance and a menace to health is a valid exercise of the police powers of the state, and that the law under which the state board of health ordered the J. T. McMillan rendering plant in St. Paul closed is constitutional, was decided by Judge C. L. Bunn in the Ramsey county court when he denied the application of the McMillan people for an injunction to prevent the state board of health from enforcing its order.

The decision is significant because of its bearing upon a controversy that has been engaging the attention of Twin City people for nearly three years and which was at fever heat for several weeks during the last session of the legislature. After the legislature had killed the bill which prohibited the Armour Packing company from building a plant on its site near New Brighton, another bill was introduced by the friends of the university giving the state board of health the right to regulate packing and rendering plants and close them if they become a nuisance.

That bill was also defeated, but now the court holds that the board has the very right which the friends of the university and the St. Paul people through the second bill sought to give them.

Armour may build on his site near New Brighton if he chooses, but when ever the plant or any part of it becomes a nuisance or a menace the state board of health may order the nuisance abated and the offending plant closed.

Teacher and Pupils Drowned.

Vancouver, B. C., July 15.—While wading hand in hand on the beach of Buzzard Inlet, Miss Gertrude Ankers, a teacher, and three of her girl pupils, were drowned. One of the girls stepped off a ledge into deep water. The others tried to save her, but were pulled in and carried away with the tide.

"Say something to the little boy," said Bobbie's mother.
"Say, kid," said Bobbie obediently. "kin you fight yet?"—Buffalo Express.

Vagaries of a Cold

You can never be quite sure where a cold is going to hit you. In the fall or winter it may settle in the bowels, producing intense pain. In the summer it may give you colic with diarrhoea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Painkiller in warm, sweetened water and relief will come at once. There is but one Painkiller, Perry Davis'. It is now put in a large 5c size as well as the regular 5c size.

RIVER FRONT PARKS

P. B. Nettleton Thinks City Should Acquire Property for Them While it is Cheap

"The city should acquire pleasant places along the river front for public parks," said P. B. Nettleton to a Dispatch reporter the other day. "I was at Fargo the other day and noticed the efforts being made to secure a park on the banks of the Red River, and thought then that with the magnificent opportunities for river front parks in Brainerd our city was shamefully wasting her opportunities. The property necessary to a system of handsome river front parks could be secured very cheaply at present and later it will cost much more.

\$40,000 OFFERED AS PREMIUMS

New Premium List of Minnesota State Fair Shows a Remarkable Variety and Quantity of Prizes of all Kinds

Novel in style, and of unusual typographical excellence, the 1909 premium list of the Minnesota State Fair which has just been issued to the number of 15,000, contains a good deal of information which this annual publication has not heretofore carried. Including the introductory matter generally descriptive of the coming state fair, Sept. 6 to 11, and the almost complete list of the county and state fairs of the United States and Canada, the new volume has 200 pages and will be mailed to any address in response to a request addressed to Secretary C. N. Cosgrove, Minnesota State Fair, Hamline, Minn. Over \$40,000.00 is offered in premiums of the state fair this year including many new classes and in addition to this there are many special prizes offered by various societies interested in live stock breeding, agriculture and horticulture.

APPLE SHOW PRIZES.

Second Annual Exhibition in Spokane, Wash., on Dec. 6 to 11.

Howard Elliott, president of the Northern Pacific Railway company, has accepted the presidency of the National Apple show, Incorporated, which will award \$35,000 in prizes and trophies at its second annual exhibition in Spokane, Wash., Dec. 6 to 11. He succeeds Louis W. Hill, president of the Great Northern Railway company, who was head of the organization last year.

The primary purposes of the exposition are to educate the growers and handlers to the fact that the apple is a staple product, that the markets at home and abroad are constantly increasing, that prizes for clean fruit of color, size and flavor are advancing, that the demand was never greater than at present and that overproduction is entirely out of the question during this century. It is also designed to establish a standard, with the view to a greater development of the apple industry.

The competitions in the various classes, ranging from \$1,000 for the best car of apples to \$5 for the best single fruit, will be free to all, the plan being to have a sufficiently wide variety to make a world's exposition, in which every exhibitor will have a chance in the awards.

Macaroni is taken from a Greek derivative which means "the blessed dead," in allusion to the ancient custom of eating it at feasts for the dead.

BACK GIVES OUT

Plenty of Brainerd Readers Have This Experience

You tax the kidneys—overwork them—They can't keep up the continual strain.

The back gives out—it aches and pains; Urinary troubles set in.

Don't wait longer—take Doan's Kidney Pills.

Brainerd people tell you how they act. Edward Dechaine, living at 601 Fifth St., Brainerd, Minn., says: "Heavy work brought on a disordered condition of my kidneys and caused my back to ache intensely. I procured a box of Doan's Kidney Pills at H. P. Dunn's drug store and their use soon eliminated the backaches, pains through my loins, and regulated the action of the kidney secretions. I gladly recommend such a valuable remedy to the people of Brainerd and surrounding countries."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Kidney Suffering

Backaches and tired feelings tell of weak kidney action—Prompt relief by using DR. A. W. CHASE'S KIDNEY AND LIVER PILLS

There is no treatment for kidney disease which will afford you relief so quickly as Dr. A. W. Chase's Kidney and Liver Pills, and none which will so certainly cure the most complicated forms of this disease.

There is a reason for this. Dr. A. W. Chase's Kidney and Liver Pills awaken the action of the liver and bowels as well as the kidneys and thereby effect a thorough cleansing and regulating of the whole excretory system.

Mr. J. H. Ingersoll, Stearns, Montana, writes: "We keep Dr. A. W. Chase's Kidney and Liver Pills constantly on hand for use in the family, and find them the best medicine we ever used for lame back, soreness in the back and all kidney troubles, including constipation. Several of our neighbors have used them on our recommendation with very satisfactory results."

Wins Four Out of Five Races.
St. Paul, July 17.—Winnipeg came back into rowing prominence by winning four of the five events held on the Mississippi river in the first day's race programme of the annual regatta of the Minnesota and Western Canada Rowing association. The Minnesota Boat club of St. Paul captured the other event, the junior "bantam" race. Winnipeg was first in the junior singles, senior four, senior doubles and junior eight.

ON THE NEW BRIGHTON SITE

Armour Concern Will Build Packing Plant.

Chicago, July 17.—The Armour packing plant is to be established at the New Brighton site and work may be started this year.

This is the information given by J. Ogden Armour, head of the Armour packing interests.

Mr. Armour has but recently returned from Europe. A few weeks ago his company sold \$30,000,000 of 4½ per cent thirty year first mortgage real estate bonds to Kuhn, Loeb & Co. and the National City bank of New York. This big deal, together with much other important business, is keeping Mr. Armour busy long hours every day at his financial office at 205 La Salle street.

That Mr. Armour has found it possible, despite the strain of other affairs, to devote time to the consideration of his proposed big packing plant at the Twin Cities is most significant.

Mr. Armour was asked point blank if he intended giving up the New Brighton site.

"We do not; our plans are unchanged," was the equally pointed reply.

The actual date that work will be begun on the plant is not known, but it will be at the earliest possible moment.

STATEMENT BY MACVEAGH

Declares Bond Resources of the Treasury Are Ample.

Washington, July 17.—The bond resources of the treasury department are ample, declared Secretary MacVeagh in a statement issued at the treasury, and even if congress authorizes 3 per cent bonds to cover the entire cost of the Panama canal less the amount already issued the bonds "will only be issued as required."

Tourists at Minneapolis.

St. Paul, July 17.—Leaving in its wake a blazed trail of confetti, the Pathfinder car—pioneer of the Glidden tourists—flashed through St. Paul. Dai Lewis, official pilot for the contesting cars, aboard and George Meinzinger at the wheel. Lewis' car arrived in the city nearly twenty-five minutes ahead of its schedule, and behind it, at fairly even intervals, followed the other machines. The procession of cars continued on its way to Minneapolis.

STAND IN WAY OF AGREEMENT

Five Propositions Bother the Tariff Conferees.

IF THEY WERE DISPOSED OF

Twenty-four Hours Would See the End of the Work of the House and Senate Conferees on the Measure. Great Progress Has Been Made. Preponderance of Differences in Nearly All the Schedules Adjusted.

Washington, July 17.—Twenty-four hours would see the end of the work of the senate and house conferees on the tariff bill and substantial agreement on the questions at issue, but for the five propositions—iron ore, coal, hides, oil and lumber—upon which the president stands firm for radical reductions or even abolition of the tariff. This is the way the conferees describe the situation and up on Capitol hill they are facetiously calling these propositions "the national issues."

Great progress was made during the day. A preponderance of the differences in nearly all of the schedules have been adjusted. In each schedule, however, there are some few items that have necessitated investigation in order to enable the conferees to get together. A number of these inquiries have not been completed. This is true of lead products, such as paints, in the chemical schedule; numerous articles in the metal schedule on which the rates depend on the settlement of the iron ore question; the demand for a change in the classification of wool tops; the change from ad valorem to specific rates on cotton goods; the increase made by the house on gloves; and the wood pulp and print paper contest.

The rates on silks and woolen goods have been determined. The senate won on both of these important subjects. On silks there will be a considerable advance over existing duties and on woolens there is to be no change from the present law except in regard to wool tops, which are to be given a new classification.

The duty on tops is prohibitive now and it is predicted that it will continue so even after the reduction is put into force.

Result of a Conference.

Adjustment of the woolen schedule is the result of a conference between Representatives McCall (Mass.), Boutwell (Ill.) and Fordney (Mich.), who represented the views of the house, and Senators Smoot, Carter and Warren, who represented the demand of the wool growers for continued protection. The senate provision re-enacted the Dingley rates of the whole woolen schedule, while the house provided for material reduction, especially in the interest of the carded wool industry.

Holding out stoutly against the various reductions the senate view prevailed except in regard to wool tops. No decision has been reached definitely concerning tops, but the probability is that they will be provided for specifically at a rate between the existing rates on scoured wool and spun yarn.

Another important schedule disposed of was wines, spirits and liquors. The senate treated this schedule as belonging to the class of luxuries and made an increase amounting to about 15 per cent on most of the articles under the head of spirits. On champagnes in bottles of the ordinary commercial sizes the existing rate of \$8 a dozen for quarts is advanced to \$9.60, with a similar advance on pints and other sizes. It is estimated that these rates will produce about \$3,000,000 annually more than is derived under the Dingley rates.

The conferees adopted the senate amendment solely because of the revenues it would produce.

VIEWED BY A LARGE CROWD

Parade of Nations Held in Honor of Elks' Reunion.

Los Angeles, Cal., July 17.—The midsummer flower and allegorical festival and parade of nations was viewed by spectators crowded along the five-mile line of march which the procession in honor of the Elks' reunion traversed. It is estimated 10,000 people took part in the pageant.

A feature of the procession was the old-time stage coach in which Horace Greely made his famous ride with Hank Monk.

Ten thousand daisies formed the sails of a miniature yacht which floated on a sea of blue bells, the waves topped with pale green and crested with white blossoms. Hawaiian singers raised plaintive melodies from their float which represented surf-riding, while the railway mail clerks maintained a traveling post-office car and distributed mail along the route.

EXPERTS MEET IN LONDON

Twelfth International Congress on Alcoholism to Be Held.

London, July 17.—In response to the invitation of the British government delegates from all parts of Europe and America will assemble here tomorrow at the twelfth international congress on alcoholism, whose purpose is the discussion of the alcohol problem from a scientific viewpoint.

The congress will be the second convention of the sort held under government auspices. Two years ago the delegates met in Stockholm by invitation of the Swedish government. The present convention, which will remain in session several days, will have as honorary president the Duke of Connaught, brother of King Edward.

The American delegates to the congress are Dr. Thomas D. Crothers of Hartford, Conn., the famous authority on the medical treatment of alcohol and drug inebriates, and Miss Cora Frances Stoddard of Boston, secretary of the Scientific Temperance federation and representative of the National Temperance society of the United States, the oldest active temperance organization in America.

REMARKABLE BREAK IN COTTON MARKET

Caused by Report on the Boll Weevil Situation.

New York, July 17.—One of the most remarkable breaks in the history of the New York cotton market occurred as a result of a special report on the boll weevil situation by the government entomologist, Dr. Hunter. At the end of the decline cotton for the new crop delivery was selling at \$2 a bale less than the closing price of Thursday.

The break was marked by panicky liquidation and excitement seldom equalled except in times of complete demoralization. Within an hour prices declined fully 35 points, and while the market recovered a few points of the loss, the closing was barely steady, the general nervousness of the traders suggesting a thoroughly unsettled state of sentiment.

The decline was the culmination of a gradually increasing lack of confidence in the stability of prices, which nearly reached the 13-cent level earlier in the week, when the low July condition report was received showing a continuation of hot weather in Texas, where the crop was supposed to be rapidly deteriorating.

Upon publication of the boll weevil statement indicating that the pest was less threatening this year than last, liquidation reached record-breaking proportions and the decline was not checked until December contracts had sold at forty-seven points below the closing figures of the previous night and ninety-five points below the high record of last Tuesday.

BODY FOUND IN THE WOODS

Missing Bank Teller Had Committed Suicide.

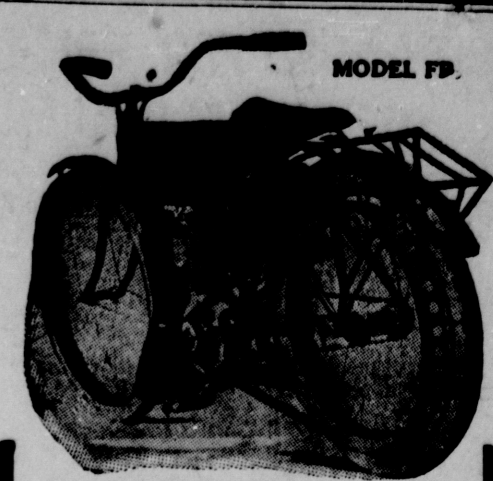

White Plains, N. Y., July 17.—With a revolver clutched in his right hand, the body of Harold C. Cox, teller of the Home Savings bank of this place, who has been missing from his home here since July 5, was found in the woods about a mile and a half from the railroad station. Cox's accounts at the bank were found to be correct. His friends believe his mind may have been affected from an apparently slight injury to the head he sustained in a runaway accident the day before his disappearance.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the check of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate woman's organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments. Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.
